Forecast for Saturday 03 Jul 2021

Weather: Cloudy start to Saturday with outbreaks of light rain and drizzle, rather murky. The cloud will then break and lift, the rain turning into scattered showers around noon and through the afternoon, with some potentially heavy and thundery, before easing off into the evening and overnight.

Chance of cloud free mountain/hill tops above 600m: <10% through the morning, becoming 80% in the afternoon.

Visibility: Very poor initially, with extensive cloud down to 300m. Slowly improving through the morning but cloud remaining around 400m in association with the showers, particularly for southern and western slopes. Good or very good only in the latter part of the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Showers throughout the day will make paths and slopes slippery, thus extra care should be taken when out walking and waterproofs should be worn.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Sunday 04 Jul 2021

Weather: Remaining cloudy through Sunday morning. Showers developing over the course of the day, with the potential for these to be heavy and thundery. A few brighter spells may develop in between the showers in the afternoon, before the showers ease off again into the evening and night.

Maximum wind: Winds on the summits southerly 15 mph, occasionally gusting 25 mph.

Chance of cloud free mountain/hill tops above 600m: 30% through the morning, rising to 80% in the afternoon.

Visibility: Scattered cloud bases of 300-400m during the morning, bringing poor visibility. Cloud bases lifting to predominantly above the summits through the afternoon, but visibility temporarily still poor in any showers that pass over.

Temperature: **Valleys:** Plus 14 becoming plus 19 Celsius.
At 600m: Plus 10 becoming plus 13 Celsius.
Freezing level: Above the summits all day.
